Select the options for your trip

Select place and street of departure and place and street of destination

Trip one-way or even return?

Select your departure date

Select transport you want to use to reach their destination

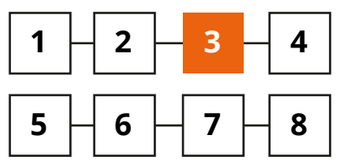

Pan

Search Results

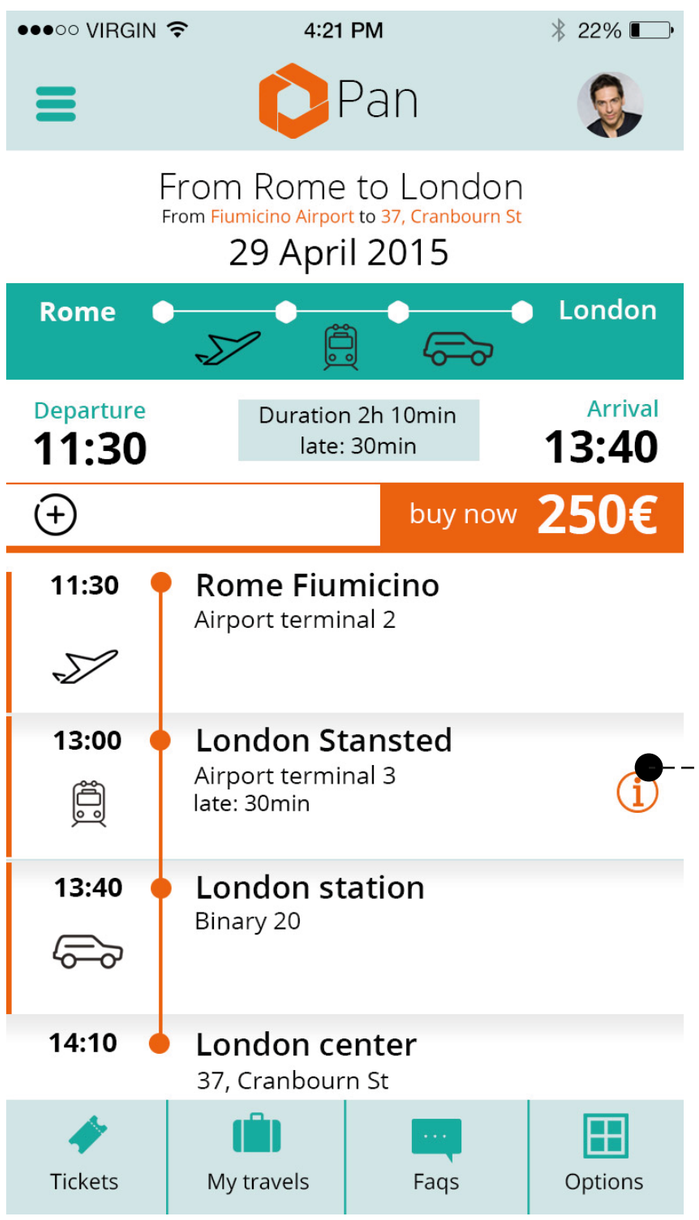

In this field you can see the selection of the place of departure and destination and the departure date you have chosen

In this screen you will see the search results based on the options selected in the previous screen.
For each solution there is: time of departure and destination, means of transport that can be used for each solution, and the price of each solution that you can choose.

Pan

Detail for your trip

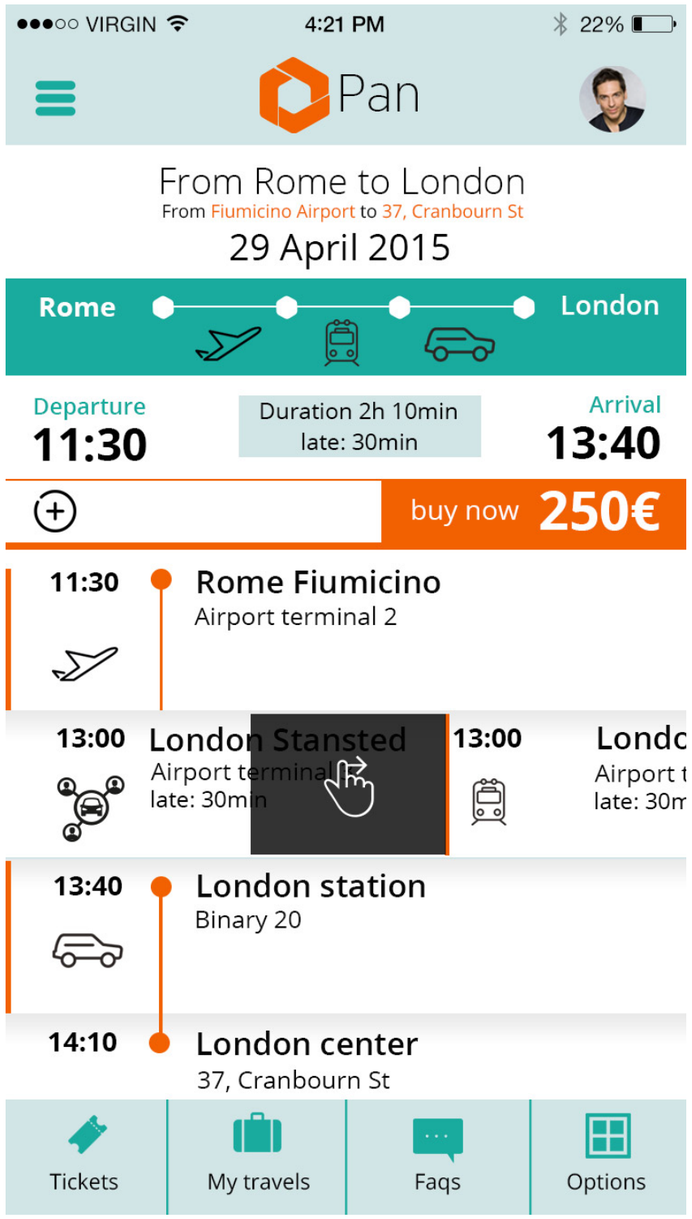

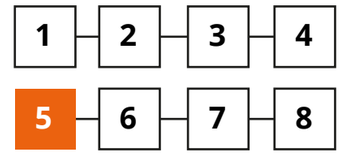

In this screen I see the detail of the trip, for each means of transport I can see times and see if there are any problems or delays

Clicking on this button we can see the sensor and social feeds

Pan

Detail for your trip

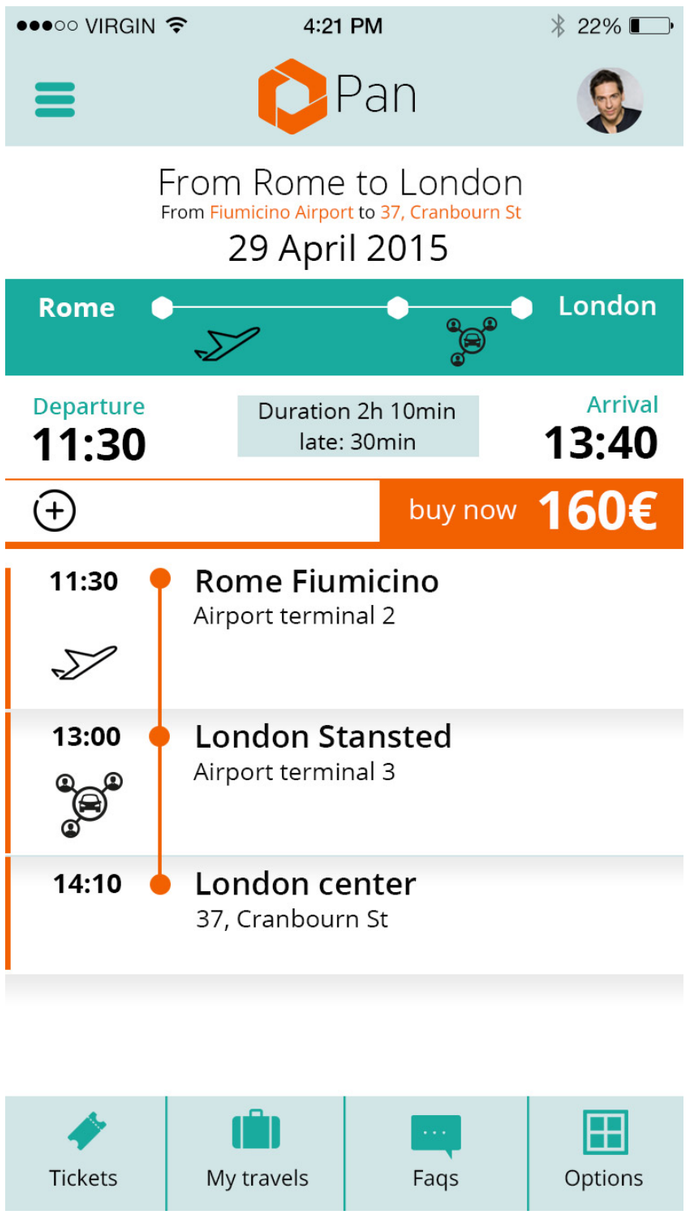

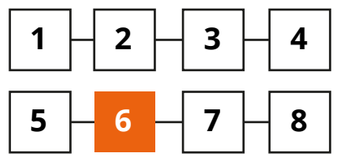

If one of the options of traveling is not to my liking, or one of the means of transport is delayed, I can decide to replace only part of my trip with a different option. To change the single travel option I can swish on the touch screen as shown in the image on the left. Automatically refreshes the option of traveling with another available

Pan

Detail for your trip

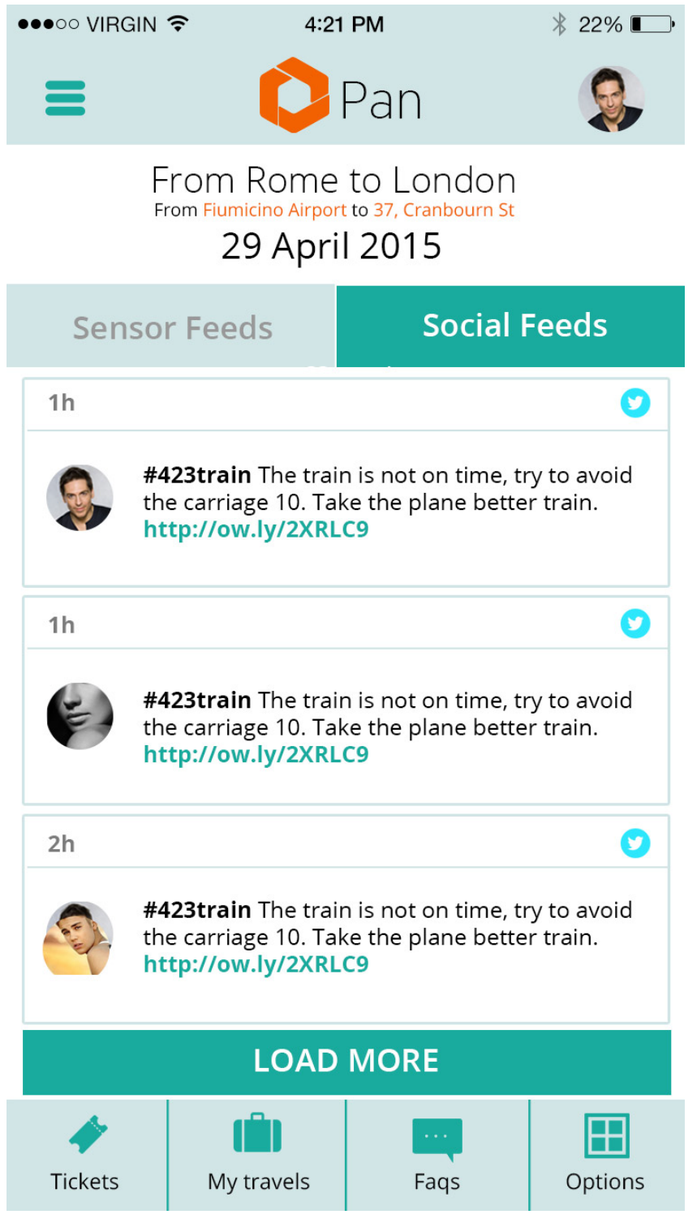

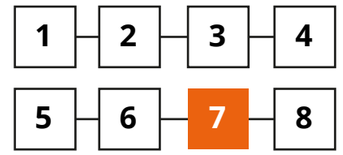

The travel route has been upgraded as we can see in this screen.
